

## International Scientific and Practical Conference-Biennale “The System World of A. A. Bogdanov”

### INFORMATION LETTER

(1873 – 1928)

Dear colleagues!

On December 9 and 10, 2021, a conference will be held dedicated to the creative heritage of A.A. Bogdanov (Malinovsky) – the founder of a new scientific direction that anticipated the development of systems theory and systems analysis in the 20th century.

A.A. Bogdanov went down in history as an outstanding Russian natural scientist, economist, philosopher, organiser of science, doctor, politician and writer.

The conference is organised by the System Analysis in Economics department of the Financial University under the Government of the Russian Federation together with the Central Economic and Mathematical Institute of the Russian Academy of Sciences and the Centre for Systems Studies of the University of Hull (UK).

The Conference will discuss the role of A.A. Bogdanov for the development of social sciences-humanities, philosophy, medicine and other fields of knowledge. The projection of his ideas for solving urgent problems of socio-economic and political life will be considered.

We invite you to take part in the Conference as a speaker or listener.

You can register for participation on the website: <https://bogdanov.systemeconomics.ru/>
